

CAR LIFTS

Instantly Double Your Parking Space

Adding a car lift to the garage allows you the opportunity to keep your prized vehicles at home. Instantly double your parking space without the cost of a major renovation or expensive off-site storage. Great for a summer car or just to accommodate two vehicles in one parking space. Lifts are ideal for residential applications and can be installed within one day.

**space saving
smart choice**

7,000 LBS TO 11,000 LBS LIFTING CAPACITY

HIGH QUALITY 4 POST LIFT

LOWER RIDING VEHICLES

OFF SEASON STORAGE

EFFICIENT USE OF SPACE

POWDER COAT FINISH

WIDE RUNWAYS

Ask about the premium accessories that are included with you lift.

Will A Car Lift Fit In My Garage?

Every garage is different and there are 4 factors that will determine if a car lift will fit: **vehicle heights**, **ceiling height**, **garage door track setup** and **garage door operator**. If you can park your vehicle in the garage then you have enough floor space for a car lift. The last thing is the garage door. You may need a high lift conversion for your door so it opens at a higher level within your garage. The minimum height required for a lift installation is 9' - 13' or more depending on the type of vehicle being stored. In most cases, we can tell you over the phone if you can fit a car lift in your garage.
