CARBON

DESIGNER SERIES INSPIRATION

Strong and sophisticated, the Carbon Series is a true reflection of your personal style. Like no other element, when you add heat and pressure carbon turns to a diamond in solid form. Nothing is stronger or more beautiful. From the darkest depths of the earth rises a brilliant rock-solid palette that can take center stage or recede into the perfect backdrop for your star vehicles. The finely-honed Carbon Series is timeless, and like a diamond, it can only be made by one element – Garage Living. The choice is crystal clear.
