It was your first love. That first international car race began a lifelong passion for the finer things in life. British Racing Green was born at England's first race in Ireland. The car was painted Shamrock Green out of respect for the host country. It's the inspiration behind Garage Living's Tudor Series. The finest racing cars from Bentley to Bugatti and Lotus have sported this traditional shade racing in the Le Mans, Grand Prix, and Formula One. So, why not bring a hint of the racing green home. It's the perfect way to pay tribute to your first love.
